1-1 Information and Media

Point!

1 Data, Information, Knowledge

(1) ([1]**Data**) : Facts or matters represented using numbers, characters, or symbols.

(2) ([2]**Information**) : Something that holds meaning or value for the recipient and serves as a basis for decision-making. Unlike objects, information has no form.

- Information has the following characteristics.

[1] ([3]**Persistence**) : Information, once created, cannot be completely erased.

[2] ([4]**Reproducibility**) : Information can be easily copied in large quantities.

[3] ([5]**Propagation**) : Information is easy to convey and spread.
Information can easily spread through ([6]**mass media**) such as newspapers and television, as well as the internet.

(3) ([7]**Knowledge**) : Information that has been analyzed and systematized to aid in problem-solving.

(4) Primary information and secondary information

[1] ([8]**Primary information**) : Information obtained through direct personal experience or acquired through research and experiments.
<Examples> Experimental reports, survey results, tabulations of questionnaire results, etc.

[2] ([9]**Secondary information**) : Information not obtained directly by oneself, but acquired through a third party.
<Example> Books, newspapers, television, etc.

- Secondary information can sometimes differ from the original information or have interpretations added to it. In other words, it is necessary to compare the obtained information from multiple perspectives with other information to determine the degree of its accuracy and reliability. This is called ([10]**cross-checking**).

2 Media

(1) ([11]**Media**) : Media for conveying information to people.

(2) Types of media

Name	Content	Example
([12]**Expression media**)	Media used as a means of expressing information.	Text, images, audio, video
([13]**Propagation/ Transmission media**)	Media used as an intermediary for the transmission and communication of information.	Television, radio, newspapers, books, telephone, internet
([14]**Recording media**)	Media used for recording and storing information.	Paper, USB drives, DVDs, cloud storage

(3) ([15]**Media literacy**) : The ability to accurately interpret information obtained from media.

Warm Up

Answer the following questions.

(1) [1] For the following items a to c, answer whether they are related to: **1)** Data, **2)** Information, or **3)** Knowledge. Write "1," "2," or "3" as your answer.

a Temperature and humidity values

b Analysis results of temperature and humidity over the past 10 years

c Weather forecast

[2] Choose one statement that is not suitable as a characteristic of information from the options **A** to **D**, and answer using the letters.

A It has a form just like an object.

B The meaning or value changes depending on the recipient.

C It has the characteristic of persistence.

D It has the characteristic of propagation.

[3] Choose the content related to the following sentences a to c from the group of words labeled **A** to **C** below, and answer using the letters.

a Even if you purchase a commercially available music CD, you are not allowed to make copies to distribute to friends.

b Emails can be sent instantly overseas.

c Rumors about people and false information can persist indefinitely.

[Word group] **A** Persistence **B** Reproducibility **C** Propagation

(2) [1] For the following media from a to f, answer whether they are classified as **1)** Expression media, **2)** Propagation/Transmission media, or **3)** Recording media. Write "**1**," "**2**," or "**3**" as your answer.

a Television b Cloud storage c Photograph

d Internet e Text character f Book

[2] What is the term for the ability to accurately interpret information obtained from media?

Explanation

(1) [1] a: **1** b: **2** c: **3**

[2] Unlike objects, information does not have form. Therefore, **A**

[3] a: The characteristic of being easily copied is reproducibility. **B**

b: The characteristic of being able to be sent instantaneously is propagation. **C**

c: The characteristic of information, once created, that never disappears is persistence. **A**

(2) [1] a: **2** b: **3** c: **1** d: **2** e: **1** f: **2**

[2] Media literacy

Try

1 Answer the following questions.

(1) What is the term for the representation of facts or matters using numbers, characters, or symbols?

(2) For the following items a to c, answer whether they are related to: **1)** Data, **2)** Information, or **3)** Knowledge. Write "**1**," "**2**," or "**3**" as your answer.

a Results on mock exam b Analysis results for admission to the desired school c Scores on mock exam

(3) Choose the characteristic of information that is appropriate from the options **A** to **D** below, and answer using the letters.

A Information does not have the characteristic of reproducibility.
B The meaning or value of the information does not change depending on the recipient.
C Information has form like an object.
D Information that has been disseminated cannot be easily deleted.

(4) Choose the content related to the following sentences [1] to [3] from the group of words labeled **A** to **C** below, and answer using the letters.

[1] It is possible to copy commercially available music and movies in large quantities without any degradation.
[2] Rumors about people persist and never completely disappear.
[3] Information published on the internet spreads widely in a short period of time.
[Word group] **A** Persistence **B** Reproducibility **C** Propagation

(5) What is the term for information obtained through personal experience or from investigations and experiments that were personally conducted?

2 Answer the following questions.

(1) What is the term for the medium used to convey information to people?

(2) Choose all the media corresponding to the following a to c from the options **A** to **F**, and answer using the letters.

a Expression media b Propagation/Transmission media c Recording media
A USB drive **B** Radio **C** Telephone **D** DVD **E** Video **F** Audio

(3) Choose the explanation of media literacy that is appropriate from the options **A** to **D** below, and answer using the letters.

A The ability to accept information disseminated by the media without question
B The ability to understand the meaning and characteristics of media and to accurately interpret information
C The ability to capture content for media distribution
D The ability to use media to edit information in accordance with the intent of the sender

Exercise

1 Read the following passage and answer each question.

> We obtain (a) such as weather forecasts from sources such as newspapers and television, and use it as a basis for deciding on our actions. Weather forecasts organize (b) such as weather conditions, precipitation, and atmospheric pressure patterns, and add meaning and value to them. Additionally, this can be generalized to accumulate (c), such as "it often rains in May and June every year."

(1) For each of the following options **A** to **C**, use the corresponding letter to indicate which blank, (a) to (c), it is related to.

A Temperature graph **B** Temperature **C** Analysis results of the lowest temperatures over the past 20 years

(2) Choose the content related to the following sentences [1] to [3] from the group of words labeled **A** to **C** below, and answer using the letters.

[1] False information once disseminated on the internet can persist indefinitely.
[2] Not only mass media, but also individuals are now able to disseminate large amounts of information throughout the world.
[3] A person copied a commercially available music CD and distributed it to their friends.

A Persistence **B** Reproducibility **C** Propagation

(3) For the following statements about information, mark "○" if the statement is correct, and "×" if it is incorrect.

[1] Primary information refers to information obtained through surveys or investigations conducted by the person themselves.
[2] The statistical data published on the Statistics Bureau's website is considered primary information.
[3] Information found by a person on a website is considered primary information.
[4] Information obtained through a third party is considered secondary information.

2 Answer the following questions.

(1) Choose all of the following media from **A** to **F** that qualify as Propagation/Transmission media.

A Internet **B** Text character **C** USB drive
D Audio **E** Radio **F** Book

(2) What is the term for the ability to understand the meaning and characteristics of media and to accurately interpret information?
